Entrepreneurship in the Population Survey:2026

EPOP Survey Overview

The first Entrepreneurship in the Population (EPOP) Survey was conducted in 2022. EPOP:2026 is the fourth annual survey conducted. One more annual collection is planned. The survey is designed to understand the scope of entrepreneurial activities from adults 18 years and up in United States and result in a variety of measures of entrepreneurial behavior including current and former business ownership, whether individuals are currently taking or have in the past taken steps towards starting a business, the extent to which individuals engage in freelance work, and engagement with the “gig economy.” In addition to capturing the characteristic profile of the individuals involved in these various entrepreneurial activities across the U.S., the collects information on the behaviors, challenges, and resources available to individuals during the entrepreneurial process.

Information about the EPOP Survey methods, data availability, publications, and access to data user support may be found on the project’s website: [EPOP.norc.org](https://www.norc.uchicago.edu/ePOP).

Instructions for Data Users and Readers

EPOP:2026 involved a change in sample design relative to past rounds of the survey.

- In EPOP:2022, 2023 and 2024, the sample sources included AmeriSpeak, a probability-based sample, an address-based sample, and opt-in online survey panels. For EPOP:2025, the AmeriSpeak panel was the only sample source.
- In prior rounds, the survey used a State and MSA sample design. EPOP:2025 used a national sample design centered around creating national estimates.

The EPOP:2025 sample was selected solely from the AmeriSpeak Panel using sampling strata at the national level based on race/ethnicity, age, educational attainment, and sex. More information on prior round sample construction, including information regarding opt-in online survey panels and the ABS frame sources can be found in the EPOP:2022, 2023, and 2024 Data User Guides.

- Text that appears in black or red font was displayed to the respondent.
- Text shown in bright Yellow and underlined was displayed to the respondent and included a link to explanatory hover text that could be displayed if the respondent wanted further explanation.
- Dark yellow text shows variable names, skip logic, and instructions for programming the creation of variables and navigation through the instrument.
- Throughout the survey, Missing and Don’t Know are recorded as -3 and -5, respectively.

AMERISPEAK PANEL SAMPLE START

WINTRO_1.

Thank you for agreeing to participate in the EPOP Survey!

The EPOP or Entrepreneurship in the Population Survey is trying to understand the attitudes and experiences of people who own businesses or are self-employed; have thought about starting their own business; or used to own a business. This survey is also for people who have never owned a business and never wanted to – we want to hear everyone's opinions about entrepreneurship in general.

Your responses to this survey are completely confidential – any information you provide will be held in strict confidence. NORC and the Kauffman Foundation (our funder) will use the information you provide for statistical purposes only. Answers to the survey will be kept anonymous and we will not share any of your personal information with anyone.

While we hope you will take the survey, please know your participation in this research is voluntary, and you have the right to stop at any time or skip any question you don't wish to answer.

We estimate the survey will take 20 minutes depending on your past experiences.

To thank you for sharing your opinions, we will give you a reward of AmeriPoints after completing the survey.

Please use the "Continue" button to move forward within the questionnaire. Do not use your browser buttons.

INTRO_LONGITUDINAL.

Thank you again for participating in the EPOP Survey! As a reminder, you completed a previous wave of this survey and last spoke with us in [DLI_SRVY_MO] of [DLI_SRVY_YR]. This year we are interested in learning what has changed and/or stayed the same since we last spoke to you. Therefore, we will be asking you a few new questions aimed at understanding how your work experiences have changed or stayed the same since [DLI_SRVY_MO] of [INSERT DLI_SRVY_YR].

But first, we will ask you about your current working situation.

The next couple of questions are aimed at understanding your experience with “Generative AI” in your business.

[HOVER TEXT ON “generative AI”: “Generative AI” is a category of artificial intelligence (AI) that empowers machines to generate new content rather than simply analyze or manipulate existing data. By using models trained on vast amounts of data, generative AI can generate content – such as text, photos, audio, or video – that is sometimes indistinguishable from content developed directly by humans. Large language models (LLMs), which power chatbots and other text-based AI tools, represent one common type of generative AI (Federal Trade Commission, 2023).]
